

**“We can now confidently manage our R&D study internally. Clarus R+D gave us the ability to plan, manage, and communicate across our company and provided compliant reports to claim our credit.”**

*Director of Tax at a Large Manufacturer*

UNLOCK THE FULL  
VALUE OF AMERICA'S  
BIGGEST TAX CREDIT

**With Clarus R+D, you have the tools in your hands to skillfully manage your R&D study. The R&D tax credit is a necessary source of funding for greater innovation, helping ensure the continued growth of your company.**

**Using our software and services, you can efficiently manage your study, communicate with all project leaders, create and document nexus, and maximize your R&D credit while ensuring IRS compliance.**

## Why Clarus R+D?

### TRANSPARENCY

Utilizing our software and process, you now have full transparency to unlock the value of these significant credits by easily planning, managing, and communicating each step of the way.

### WORKFLOW

You can efficiently manage your R&D study by organizing, qualifying, and calculating the credit for all of your company projects using our software and proven methodology.

### COMMUNICATION

The Clarus R+D platform removes complicated barriers so you can communicate across your entire organization to more fully capture the R&D credit.

### COMPLIANCE

Our secure software solution provides all required IRS and supporting documentation to confidently defend your earned credits.
